Career Objective

To leverage my experience in software project management, business analysis, and digital transformation to lead cross-functional teams, optimize resources, manage project risks, and deliver quality software solutions aligned with business objectives.

Career Summary

Software Project Manager and Business Innovation Leader with 7+ years of experience in IT, business analysis, and di gital transformation. Skilled in project planning, requirements management, resource allocation, risk management, stak eholder communication, and cross-functional team leadership. Experienced in coordinating enterprise software, web, mobile, ERP, CRM, and digital platform delivery using Agile, Waterfall, and hybrid methodologies.

Special Qualification

Experienced in software project management, Agile delivery, business analysis, resource planning, risk management, stakeholder coordination, and cross-functional team leadership. Proficient in MS Project, Figma, and Power BI.

Experience

Total Year of Experience: 7.9 yrs

1. **Deputy Manager (Head Of Department) (3.3 yrs)**
   (01 Aug, 2023 - Continuing)

   Pakiza Software Limited
   Dhaka

   Area of Expertise
   Business Analysis (1 yr), Project Management (3 yrs)

   Duties/Responsibilities
   - Lead the planning, coordination, and delivery of software development and digital transformation projects, ensuring alignment with business objectives, client requirements, scope, timelines, and quality expectations.
   - Define project scope, objectives, deliverables, milestones, schedules, resource requirements, and success criteria in collaboration with stakeholders and technical teams.
   - Coordinate cross-functional teams across Project Management, Business Analysis, Web, Mobile, Backend, QA, UI/UX, and Documentation to ensure effective execution and timely delivery.
   - Gather and analyze business requirements, translate client needs into actionable software requirements, and facilitate communication between business stakeholders and development teams.
   - Monitor project progress, manage risks, dependencies, scope changes, and delivery issues, and coordinate corrective actions to maintain project objectives.
   - Develop resource allocation plans, prioritize projects based on business needs and team capacity, and support efficient utilization of organizational resources.
   - Establish project governance, reporting mechanisms, documentation standards, delivery processes, and quality management practices to improve project visibility and accountability.
   - Collaborate with senior management, clients, and business development teams to evaluate requirements, assess feasibility, and align technology solutions with business goals.
   - Lead business innovation initiatives, product roadmap development, market research, competitor analysis, and feasibility assessments for enterprise software, web applications, mobile apps, SaaS, ERP, CRM, and emerging technology solutions.

- Contribute to strategic planning, product development, process optimization, and business growth initiatives while ensuring coordination between business priorities & technical execution.

2. **Business Development Executive (1.5 yrs)**
   (01 Feb, 2022 - 31 Jul, 2023)

   Pridesys IT Limited
   Dhaka

   Area of Expertise
   Project Management Coordinator (1.4 yrs)

   Duties/Responsibilities
   - Supported business development activities for e-Governance and software solutions, including client communication, proposal preparation, and presentation development.
   - Coordinated project-related tasks and deliverables across multiple assignments, managing competing priorities while maintaining deadlines and quality standards.
   - Consulted with clients and internal stakeholders to understand business needs and communicate suitable software solution concepts.
   - Prepared business presentations, proposals, brochures, infographics, and other supporting materials to communicate product capabilities and support client engagement.
   - Assisted in organizing project information and aligning business requirements with proposed solutions.
   - Collaborated with account managers and relevant teams to support client discussions, proposal development, and business opportunities.

3. **IT Executive (3.1 yrs)**
   (30 Dec, 2018 - 01 Jan, 2022)

   BestAid
   Dhaka

   Area of Expertise
   Business Analysis (3.1 yrs), Leadership (3.1 yrs)

   Duties/Responsibilities
   - Oversaw the organization's existing software applications and systems, including purchased software and internally developed solutions, to ensure they met operational requirements.
   - Identified software needs across departments by analyzing business processes, operational challenges, and user requirements.
   - Gathered, analyzed, and documented software requirements, functional needs, and system improvement requests from relevant stakeholders.
   - Coordinated with software vendors, developers, and service providers regarding software implementation, customization, maintenance, troubleshooting, and enhancements.
   - Evaluated software solutions based on business needs, functionality, usability, and operational suitability to support technology-related decisions.
   - Monitored software performance, identified operational gaps, and coordinated with relevant parties to resolve issues and improve system effectiveness.
   - Acted as a liaison between business users, management, and technical teams to communicate requirements and ensure software solutions aligned with organizational objectives.
   - Maintained software-related documentation, requirements records, issue logs, and IT asset information.
